# Fraud Detection Analysis

**Risk Assessment:** MEDIUM

The fraud risk is rated as MEDIUM due to discrepancies between bordereaux and statement data, indicating potential issues in data reporting or processing. Further investigation is needed to resolve these discrepancies and gather more detailed claim data for a comprehensive fraud assessment.

# Treaty Exclusions Validation

No treaty exclusions violations detected.

# Amount Reconciliation

All amounts reconciled successfully.

|                  |        |
|------------------|--------|
| Bordereaux Total | \$0.00 |
| Statement Total  | \$0.00 |
| Variance         | \$0.00 |
| Variance %       | 0.0%   |

# Date Validation

---

All dates validated successfully.

---

# Duplicate Claims Check

---

No duplicate claims detected.

---

# Compliance Assessment

---

All compliance requirements met.

---

## Final Recommendation

---

**Decision:** **REVIEW**

**Rationale:** Multiple validation concerns identified that require supervisory review before processing can proceed.

### Required Actions:

- Schedule supervisory review meeting
  - Request additional documentation if needed
  - Validate disputed amounts with cedant
-

# Authorization and Approval

This report requires the following authorizations before claim processing can proceed:

## Claims Analyst

\_\_\_\_\_

Signature

**Print Name:**

\_\_\_\_\_

**Date:**

\_\_\_\_\_

## Supervisor Review

\_\_\_\_\_

Signature

**Print Name:**

\_\_\_\_\_

**Date:**

\_\_\_\_\_

## Underwriting Manager

\_\_\_\_\_
